Navy field, dark compact, no house,
no baked round-rect.

Launch field #070D19
oklch(0.16 0.028 262) → sRGB
No logo on launch.

Appicon / PWA / favicon use navy #0B1F35, not the launch token. src/styles.css was not modified.

Wordmarks — navigation size

Same geometry. Dark: ivory Refurb + ivory rays. Light: navy Refurb + navy rays.

Dark / nav ~32px height

Light / nav ~32px height

Large dark

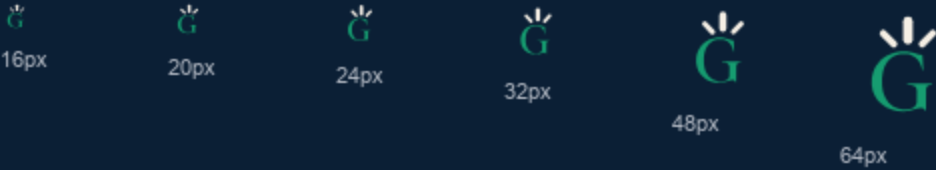

Large light

Dark-surface compact (ivory rays on navy)

256px on navy — dark compact master (IMPL-A optical PASS, byte-bound)

Light-surface compact — visibility proof

refurb-genius-mark-light.svg • same geometry • G #169C70 • rays #0B1F35

256px on ivory — navy rays remain visible (authorised colour translation).

Contrast check: dark compact (ivory rays) on ivory — rays recede. Not for light surfaces.

Platform derivatives

Navy field + dark compact. No house. No baked round-rect. Applcon is RGB 1024 with no alpha.

Source: .dark --background oklch(0.16 0.028 262). Conversion: CSS Color 4 OKLCH→sRGB. rgb(7,13,25).
Storyboard backgroundColor is matching custom sRGB, not systemBackgroundColor.

Maskable: navy fills the canvas; compact sits inside the mask-safe area; no circular mask is baked into pixels.

Authorised presentation examples (asset-level mocks)

Not live product screens. Same masters as MobileTopBar / Sidebar / Navbar / Auth tile.

Mobile top bar — dark compact on dark surface. Host name: Refurb Genius home. Graphic decorative.

Mobile top bar — light compact on ivory surface. Same G geometry, navy rays.

Sidebar — full dark wordmark on card-like dark surface.

Sidebar — full light wordmark on light/ivory surface.

Auth tile — dark compact on existing #111827.
Tile aria-hidden. Adjacent “Refurb Genius” text is the spoken name.
No literal RG. Auth logic unchanged.

Deferred: monochrome wordmarks, report/export branding, OG/social, custom Applcon appearances, physical verification.

IMPL-B does not include generated ios/App/App/public/** copy (prepare:ios not run).
